

**Professionalism and competence**  
at the service of companies

## ABOUT US

Revilaw is an Auditing firm registered in the Register of Auditors held by the Italian Ministry of Economy and Finance, pursuant to Legislative Decree nò.39/2010 and its implementing regulation D.M.n.144/2012.

The company was born from the initiative of six Senior Partners in order to make available in the Legal Audit panorama a structure with a high level of professionalism.

The Company, led by Sole Director Dr. Pier Luigi Sterzi, with consolidated experience and specialisation in the field of Legal and Voluntary Audit, provides companies with an efficient and professional collaboration, promptly adapting and updating to the evolution of the market and the demand that comes from the specific sector of legal auditing, implementing a process of precious and rare integration with every business reality in order to better respond to their needs for the solution of more complex administrative and accounting problems.

## **THE 'REVILAW' PROFESSIONAL NETWORK**

Revilaw srl has structured its organisation with a widespread presence throughout the country by setting up a network of Professionals who are all members of the Register of Auditors and the Register of Chartered Accountants. “Revilaw Professional Network“ is constantly and continually expanding and the Professionals who are members of the Network are required to meet a very high level of quality that goes well beyond the standards required by the regulations in force. The continuous specialised training, the exchange of experiences, the cooperation, the presence in the network of other specialisations and the specific technical and professional knowledge of the Professional Members, allow for the provision of punctual, quality services to companies, capable of satisfying specific business needs.

## **VALUES**

The subjective requirement underlying membership of the Revilaw Professional Network entails the application and implementation of the Codes of Ethics and Codes of Conduct that regulate the profession of Chartered Accountants and Auditors, but Revilaw srl has further strengthened these values by also preparing its own Code of Ethics to which the adhering professionals adhere in the performance of their duties.

## **MISSION**

Revilaw srl aims to offer its clients the highest level of professional expertise, making it a true excellence so as to constitute a valuable asset for the company itself and a high added value for clients, because the strength of Revilaw srl lies in the professionals who adhere to it and who are endowed with in-depth technical and professional knowledge placed at the complete disposal of client companies.

## Statutory audit is professional

### LEGAL AUDIT AND ASSURANCE

Statutory Audit and Assurance services enhance the transparency and credibility of companies, provide comfort to both financial and non-financial information and represent a qualified communication element towards stakeholders, shareholders, customers, suppliers, investors and regulators.

A lever to achieve an important competitive advantage in the capital market, in business deals and in the growth path of companies. "Revilaw srl -Professional advisors" offers multiple, highly qualified services to companies in the Italian economic fabric that see the audit of financial statements as an opportunity for managerial growth, transparency and competitiveness.

## **AUDIT**

Legal Audit is not just a simple audit of accounts, but certifies the success of a business, the choices made by management, projecting the company into the future after having consolidated the choices made, which themselves constitute the most solid basis for planning the future.

- ***Statutory and voluntary audits of consolidated financial statements***
- ***Audits of specific areas of financial statements and/or separate annual accounts and/or interim financial statements***
- ***Assistance to boards of auditors for audit activities***
- ***Procedural certification, auditing and certification of expenditure reporting for training activities and funded projects***
- ***Outsourcing of internal audit and compliance activities***

## *ASSURANCE*

The Service Assurance area provides specialised consultancy services and the search for customised solutions through multiple activities.

- *Budget, business plan and business plan attestation*
- *Economic and Financial Plan (P.E.F.) certification in support of project financing*
- *Certification of certified business recovery plans, restructuring agreements and composition procedures*
- *Analysis and evaluation of budgeting, management reporting and management control systems*
- *Evaluation activities of internal audit procedures*
- *Risk management activities with evaluation of counterparties through financial statement analysis*

## **ADVISORY**

These are highly professional services that the members of the Revilaw Network are able to offer thanks to their high level of preparation and specialisation that allows them to focus and concentrate on the best solution for the client.

- *Assistance in the preparation of budgets, business plans, and industrial plans*
- *Assistance in the application of international accounting standards (IAS-IFRS)*
- *Compilation and preparation of reporting packages*
- *Assistance in the preparation of social balance sheets and accountability systems for social enterprises and non-profit organisations*
- *Assistance in the preparation and updating of economic and financial plans to support project financing*
- *Assistance in the preparation and organisation of manuals, accounting procedures, internal reporting systems and data collection*
- *Assistance in the preparation of consolidated financial statements with formalisation of internal data collection and reporting procedures*

## **TRANSACTION**

Transaction services provide our clients with valuable support in the context of extraordinary M&A and other transactions.

- ***Accounting, tax and financial due diligence in the context of M&A transactions***
  - ***Assistance and advice in the preparation of information memoranda***
- ***Valuations, analysis and definition of exchange ratios and/or issue prices of new shares***
- ***Valuation of companies and business divisions, company shares and assets***
- ***Verifications and analyses of compliance with contractual agreements***
  - ***Assistance in optimising choices in merger, acquisition and demerger operations***
- ***Drafting of sworn expert reports for the contribution of assets and companies to company formations and/or capital increases***

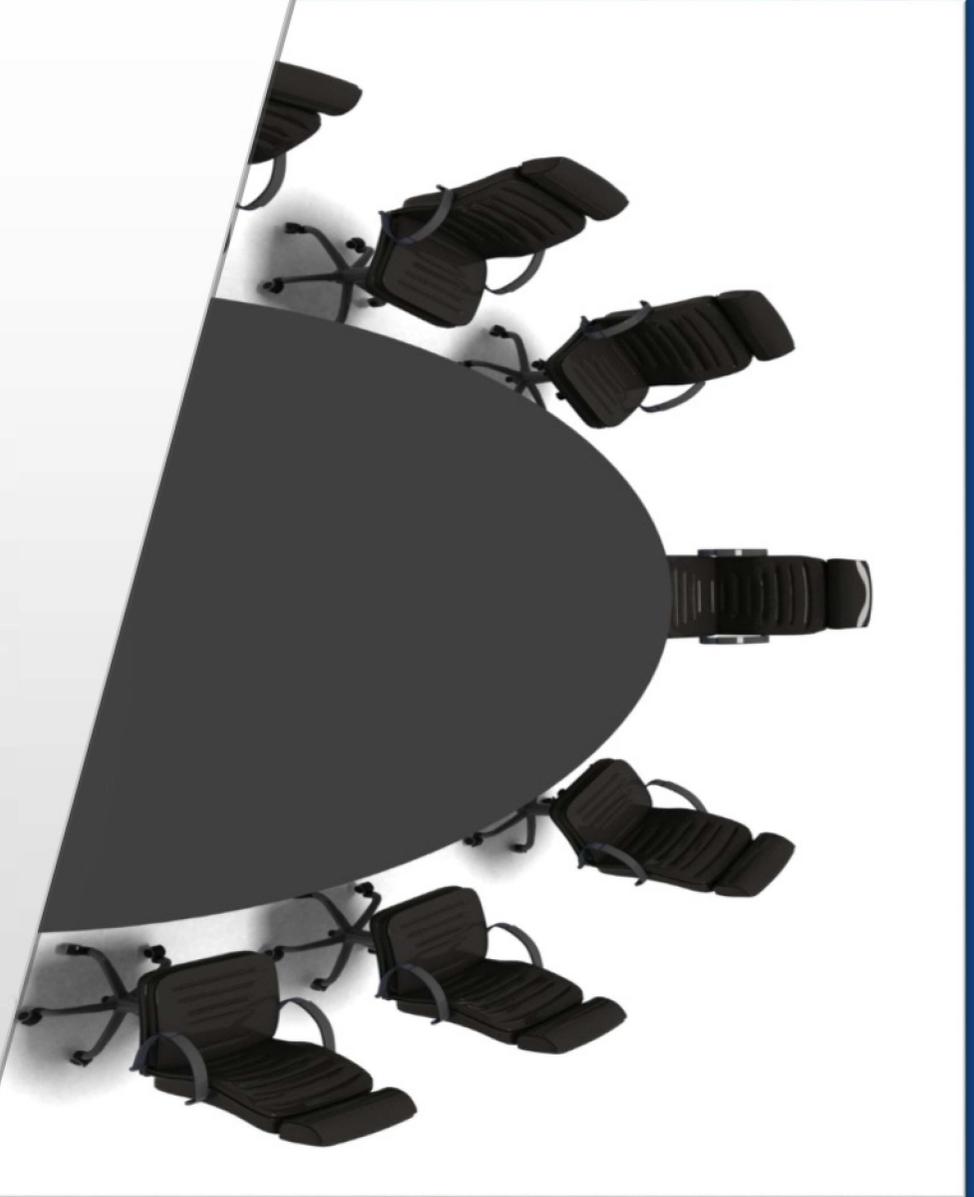

**Training is professional**

#### **TRAINING AND UPDATING**

This is the specific training area that supports the network and its members, but also operates externally with professional training programmes on highly qualified topics. The training structure is made available both to professional associations, but also to companies with in-house courses and to associations representing companies and professionals.

## **REVITIME SERVICE**

This is a professional 'pre-audit' service organised by Revilaw srl for companies that meet the current parameters for the obligation to appoint a supervisory body, but which, as a result of regulatory developments, have not yet done so.

This is a real training and information for the technical, operational and organisational preparation of the governance and administrative structure of potentially affected companies. This is an advantage in terms of time that allows companies to make their operations effective immediately upon the appointment of the Control Body, with considerable savings in time, money and teamwork for more effective and efficient audit operations.

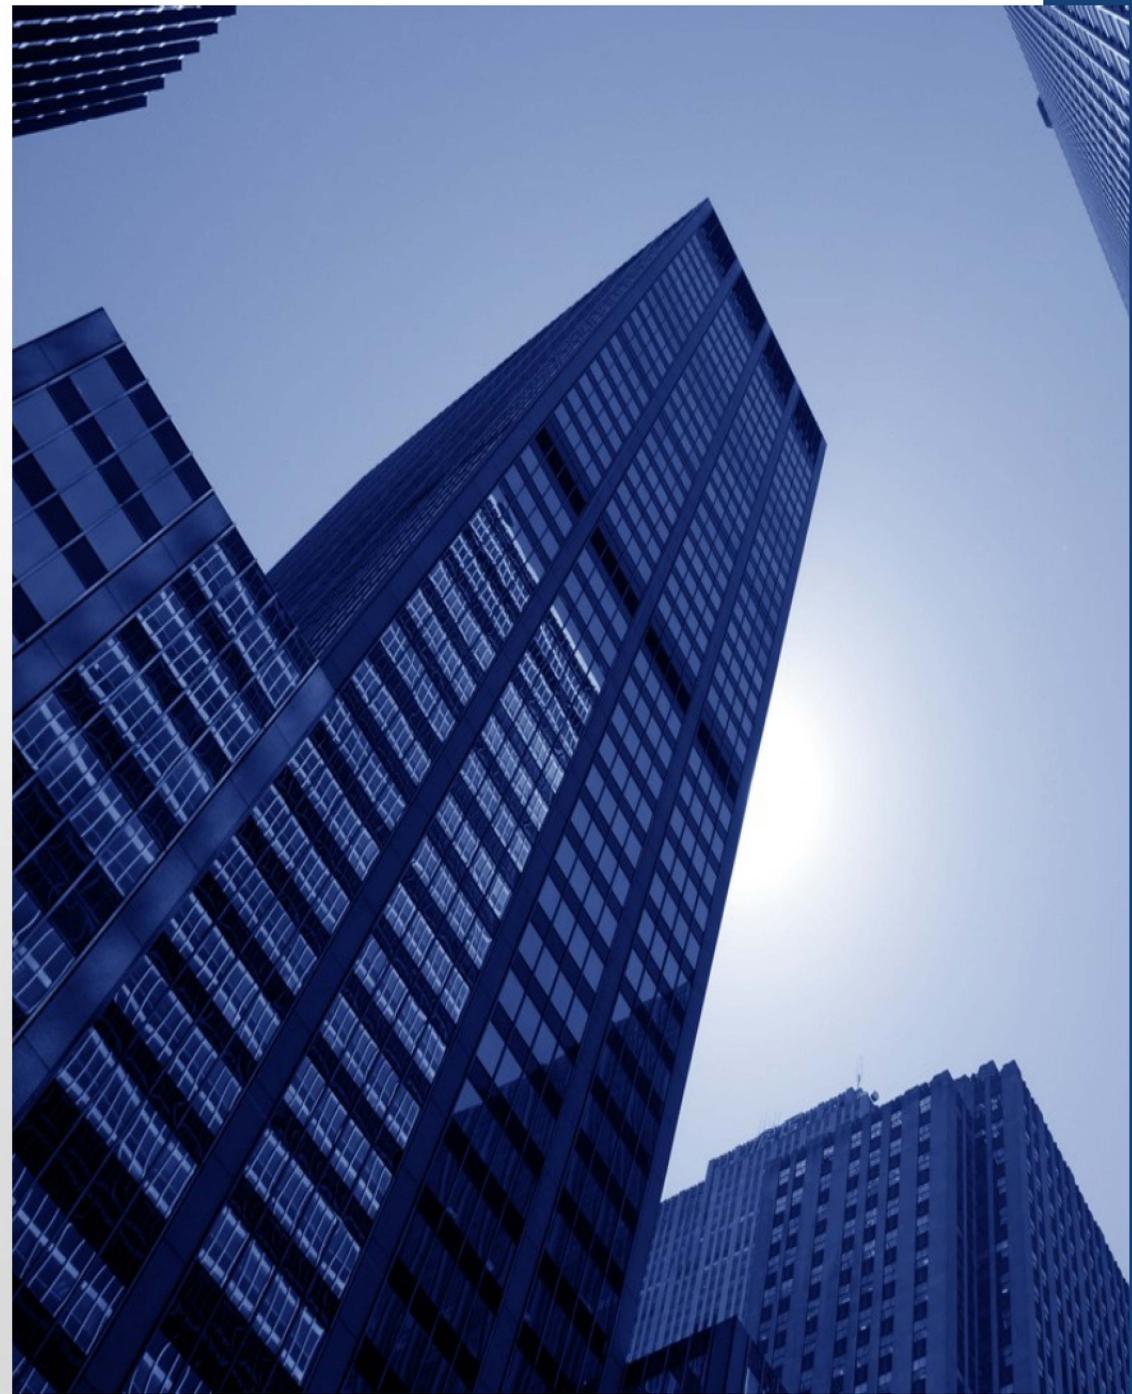

## **WHY CHOOSE REVILAW**

We offer flexible, solution-focused, company-specific audits.

We guarantee a network of highly specialised professionals, a dedicated and available audit team coordinated by a qualified Head of Team and with Senior Partner as privileged interlocutor.

We offer continuous and capillary assistance attentive to client needs.

We offer transparency and clarity in pricing and work performed, as well as appropriate and professional competitiveness based on efficient cost structures.
